

IN THE SPECIFICATION

Please cancel the entire specification of the subject U.S. patent application, as filed, as constituted by the verified English language translation of PCT/EP2005/051162, including the List of Reference Numerals, in favor of the concurrently submitted Substitute Specification. That substitute specification is the result of the entry into the verified translation of a cross-reference to related applications, and of suitable section headings; the deletion of the List of Reference Numerals, and of references to the claims; the correction of minor errors in grammar, punctuation and spelling, and a general revision of the verified translation to place the substitute specification more in a form in accordance with U.S. practice. These various changes and corrections do not constitute any new matter. A marked-up version of the verified translation, showing the changes made thereto, to arrive at the substitute specification, is submitted for the Examiner's review.
